

College Annual Report 2020-21

Mahant Laxminarayan Das College is a fast-growing college in the last two decades. The college is built with the promise of holistic development through academic and extension activities. The college provides a co-education facility. We believe in gender equality and the ratio of male and female students are nearly equal. The pandemic has landed the whole world in a new era. It has not only affected the health of the students but also shaken the roots of higher education. During the pandemic, the existence of many private colleges became difficult, but our college was functioning efficiently. Based on the efficient management of the college, we were not only favorably running the college but there has been a very small decline in the number of students. Relevant to the functioning of the college during the pandemic, ICT-based training was given to the staff. All the operations were done in an IT-friendly environment that led to the admission process of the college, facilitating the teaching-learning process, examinations, and library access. The students' fees were also received through online mode. The college had been engaged in providing continuous counseling and guidance to the students. Students can be in constant touch with their faculties with the help of online classes conducted through Google Classroom. The students were trained to make answer sheets for the final examination through the videos on Youtube. Electronic devices were regularly used in the college during the pandemic. Webinars and Workshops were organized by different departments. An electronic device was used once a month for teachers' meetings. The college provided immediate and unlimited leave to the employees in case of being infected with COVID-19. The prize distribution was also done for the outstanding achievements of students. For the first time, the semi-virtual annual function was successfully organized by our college in the entire state of Chhattisgarh. We give students a pre-eminent, intellectual and creative centre for their growth and thus make the world a better place to live in.
